

2020-2021 Curriculum Profile

Robinson School, an International Baccalaureate World Continuum School, is dedicated to developing and challenging the individual potential of our diverse study body as they grow into exceptional young people and active, compassionate and responsible citizens. Our mission of academic excellence, balanced with a focus on the holistic development of each student, begins with the youngest grade levels. Our students progress through academic programs that meet their individual needs, while preparing them for success in Middle School, Upper School, at the college and university level, and in their future.

Robinson School offers a core academic program, enriched as students progress through grade levels by additional specialty subject areas, electives and developmental programs. Our academic programs integrate the International Baccalaureate teaching philosophies with our focus on strong fundamentals, the development of students as critical, creative and flexible thinkers, and innovative, student-centered teaching and learning that prepares students for the world of tomorrow.

Elementary and Middle School programs develop engaged, motivated and intellectually flexible students prepared to take on the challenges of the Upper School academic program options at Robinson: IB Full Diploma Program, IB Diploma Certificate Program, College Prep and AP, and the Pathways Program. Students entering 11th grade are provided guided support in selecting the academic program choices that best suit their individual needs and goals for the future. Robinson's curriculum leads to a 100% college acceptance rate and extensive college scholarship awards for upper school students each year.

ELEMENTARY CURRICULUM

Preschool:

Our PPK through Kinder Program represents the introductory phase of the IB Primary Years Programme and provides students an exciting classroom environment that combines foundational academic skills with hands-on learning and constructive play to enhance development and a life-long love of learning.

The Preschool Curriculum is focused on the following areas: *English Language Arts, Spanish, Mathematics, Science, Writing, Visual Art, Music, Physical Education, Library, Technology and Spiritual Life.*

1st to 6th Grade:

Our Elementary School curriculum combines a solid foundation in traditional academic disciplines with the inquiry-based, interdisciplinary and student-centered approaches of the Primary Years Program (IB PYP) by which students develop and master fundamental academic and social skills while discovering and immersing themselves in the joy of learning.

The 1st to 6th Grade curriculum is focused on the following areas: *English Language Arts / ESL, Spanish Language Arts/Spanish Acquisition, Mathematics, Science and STEAM, Technology and Design, Physical Education, Visual Arts, Music, Library, and Spiritual Life.*

6th Grade Exhibition Project: This project, an eight-month, student-led collaborative effort where teams of students employ *empathy, research, and action* to develop an outcome in an area of personal interest that generates a positive community and/or global impact.
