

Robinson School

May 13, 2022

Dear Robinson Community,

As we are in our final stretch of the 2022-2023 school year, we write to share important reminders and request support from our community. As we are all aware, the pandemic circumstances in Puerto Rico remain challenging. We have many important school events and activities in the coming weeks – student final assessments, graduations and ceremonies, celebrations, class events, etc. – where our faculty and staff, students, and families will come together to recognize the accomplishments and successes of our students this year. Throughout the challenging times faced this school year, the school has continued to do all within our power to keep our community safe and our campus operations continuing.

We thank you for your ongoing support in working with us to ensure we end our year successfully. We encourage every member of our community – staff, student, parents, and families – to continue to evaluate risks and take actions to safeguard our school community. Please continue to share openly with the school any situation related to illness your child or family is facing in order to continue to take the appropriate actions required.

As a reminder, Robinson School must adhere to the Department of Health requirements for schools, which may change depending on the current COVID levels in the zone of San Juan. Please review the included graphic for action steps for instances of COVID (+) or Close Contact with COVID-19. The school takes this opportunity to remind everyone, that if you feel ill or are experiencing any symptom of COVID-19 please do not come to school, event, or activity in order to help keep our community members, and those close to us, safe.

Please reach out to your Division Head Office with any questions.

Sincerely,

Robinson School
